

THE FULTON JOURNAL

Local Fulton Man Begins New Business

Local resident Don McLuckie has recently launched his Spring-Green business services in the Fulton, IL area as well as Iowa's Clinton and Scott counties, and if his career can prove anything, it's that sometimes one can find their calling through the most unlikely of circumstances.

McLuckie is a 17-year veteran of Archer Daniels Midland, having worked his way up the corporate ladder to obtain managerial status in both quality control and process. While he enjoys his work, McLuckie has always wanted to open his own business yet felt the timing was never right to pursue his entrepreneurial goals. When

one of his close friends passed away at the age of 39, however, McLuckie realized that life was truly too short not to fulfill his dreams and decided to open Spring-Green Lawn Care. McLuckie is never content to rest, and works both jobs simultaneously in addition to ongoing community involvement - he even helped raise over

\$60,000 in donations for Fulton Elementary School.

For a free lawn evaluation and estimate contact Don at 888-9-SPRGRN. Even if you are currently under contract with another lawn service, Don is still willing to give you free evaluation and estimate.
